

M Tech (Research) Programmes

Department of Chemical Engg.

Chemical Engineering
Environmental Science and Technology
Industrial Biotechnology

Department of Civil Engg.

Environmental Engineering
Geotechnical Engineering
Structural Engineering
Transportation Engineering
Construction Technology & Management

Department of Computer Science and Engg.

Computer Science & Engineering
Computer Science & Engineering – Information Security

Department of Electrical & Electronics Engg.

Power & Energy Systems

Department of Electronics & Communication Engg.

VLSI Design
Signal Processing and Machine Learning
Communication Engineering and Networks

Department of Information Technology

Information Technology

Department of Mechanical Engg.

Thermal Engineering
Manufacturing Engg.
Mechatronics Engg
Mechanical Design

Department of Metallurgical & Materials Engg.

Materials Engg.
Process Metallurgy
Nanotechnology

Department of Mining Engg.

Rock Excavation Technology

Department of Mathematical & Computational Sciences

Computational and Data Science

Department of Water Resources and Ocean Engg. (Formerly Applied Mechanics and Hydraulics Department)

Water Resources Engineering & Management

Marine Structures

Remote Sensing and GIS
