

Paper by Prof. D.K. Bhat selected as HOT article in Nanoscale Adv.

The paper titled “Rhodium Doping Augments Photocatalytic Activity of Barium Titanate: Effect of Electronic Structure Engineering.” by Prof. D. Krishna Bhat et al. from Department of Chemistry, NITK Surathkal has been recognized as **HOT article** by Nanoscale Advances (A journal from Royal Society of Chemistry).

 Accepted Manuscript - Paper

Rhodium Doping Augments Photocatalytic Activity of Barium Titanate: Effect of Electronic Structure Engineering

Denthaje Krishna Bhat, Harsha Bantawal and Sandhya U. Shenoy

From the themed collection: [Nanoscale Advances HOT Article Collection](#)

The article was first published on 05 Nov 2020
